

G61 series gas furnace

The luxury of Lennox gas ducted heating

Offering an impressive 5.3 star efficiency, the Lennox G61 gas furnace is the ultimate in energy efficiency heating and leaves money in your pocket with lower running costs.

With unique sound absorbing insulation panels for quiet operation and a variable speed motor to carefully control the air flow throughout your home, the G61 provides two levels of heating, one for the mild days and the second for the cooler days, to ensure that you are always comfortable.

Constructed to the highest standards of design and engineering, the G61 is built tough for outdoor installation. Lennox offer a full 5 year parts and labour warranty to assure you of years of reliability.

LENNOX™

G61 series gas furnace

Quality Heritage

Lennox have been at the forefront of innovation and design since manufacturing the world's first home heating furnace more than 115 years ago. So you know when you choose Lennox, you'll get more than just a piece of equipment. You get a complete luxury system from a manufacturer that is committed to providing you with the best in quality home comfort.

Engineered For Comfort & Efficiency

The G61V is one of the most efficient furnaces you can buy, with a star rating of 5.3 you gain comfort and save money. Among its energy-saving features is a variable speed motor that uses about two-thirds less electricity than a standard motor. By taking furnace technology to new heights, the G61V helps your energy bills reach new lows.

Optional Lennox cooling

Lennox's superior design and technology allows you to enjoy the comforts of cool air in summer, travelling through the same duct work as your gas ducted heating system. This can be set up at the time of installation, or added to your heating system further down the track.
